The program of the World League «Mind Free of Drugs»

Mission of the World League

The mission of the League is to establish psychological immunity against drug abuse in the world community by all possible means, and to catalyze a chain reaction effect for social drug denial.

Goals and objectives

The main goal of the League is to form mind free of drugs ideology in the world consciousness. Such goal can be attained using the below listed strategies:

- Planetary promotion of Mind Free of Drugs ideology by all possible means
- Multisided cooperation with international, governmental and nongovernmental organizations
- Creating and promoting in the world consciousness the ritual of drug rejection which is to be performed at the historical place, the trans – Asian cross roads of ancient and modern drug trafficking, the Golden Crescent. The symbolic place for the ritual is the Salvation Mountain Tashtar-Ata, Bishkek, Kyrgyzstan
- Erection of the Spiritual Architectural center, at the Mountain of Salvation, dedicated to the victims of drug abuse, followed by building similar spiritual centers in different world countries
- Implementation and realization of the World anti drug campaigns (March parades Planet Earth) on regular bases, passing the torch of the action from country to country
- Construction of International rehabilitation center at the Lake Issyk -Kul (Kyrgyzstan) and a high technological drug addiction clinics in different world countries where they are necessary
- Creation of the Fund for the World League ‘Mind Free of Drugs’

The direction of the World League’s activity

In order to reach the above stated goals and objectives the World League is undertaking the following steps:

- To analyze the world epidemiologic data on chemical and other forms of addiction among adolescents and youth in order to coordinate adequate anti- drug actions
- Drug and other substances abuse prophylactics by the League, by all possible means in the frames of its prospective, long term programs
- Create and deliver to the world consciousness specially developed, ideological materials, carried out on different visual and potentially informative vectors, carriers and mediums
- Publishing and informative materials for the mass consumption
- Developing the scenarios for local and global scale campaigns and its further realization (sport, cultural and show events, etc.)
- Carrying out various competitions and contests within the frame of the League program
- Implementation of the project ‘Dollar from each’ in the frames of the program ‘From country to Country’, form ‘President to President’.
- Cooperation with international, governmental and nongovernmental organizations in order to provide consultations, education, and other specifics, directed to form planetary withstanding against drug abuse and its illegal trade.
- Develop and introduce the human law initiatives intended for drug and alcohol addicted people, which will suggest mutual cooperation and understanding between both parties.
- Global Scale Charity
- Participation at the world events (conferences, congresses, actions, campaigns) intended for propaganda and promotion of the World League’s “Mind Free of Drugs” Ideology.

Mechanism for the World League’s program realization

In order to attain the main goal of the League, in the frames of its planetary promotion of the ‘Mind Free of Drugs’ ideology, a specially developed, long term (50 years) program is introduced. The beginning of its realization took its start in 2010.

- The first stage called ‘No to Hard Drugs’ is accounted for 25 years and assumes the fight, against hard drugs such as heroin, cocaine, amphetamine, synthetic drugs and similar, as these groups are the most harmless and deadly for humans.
- The second stage ‘Mind Free of Drugs’ announces active fight against all possible drugs hard and light. The realization of this stage is accounted for 15 years.
- The third stage, called ‘The Intelligent World’ assumes total psychological immunity among human population, against drug addiction, including alcohol and nicotine. The realization of this stage is planned for 2050.

The distinguishing side of the League’s activity is the mass, planetary approach. In the light of a modern integration, the erasing of borders, overcoming taboos and dogmas, the realization of

each individual stage of the World League is aimed to unite the all possible world forces in order to combat drug addiction and its illegal trade. In the program with its global directives a deep psychosocial effect is laid.

The three forms of realization:

- Around the globe construction of spiritual, architectural complexes dedicated to the victims of drug abuse. Example: The Salvation Mountain Tashtar-Ata (in translation mean Holy Stones)
- Organization of the world campaigns and actions attracting as many participants as possible, in order to develop a world chain reaction against drug addiction and its illegal trade. Unfortunately, socially unprotected and economically unstable governments are unable to withstand global drug pandemic. Its citizens can be unwillingly turned into a drug trafficking and drug abuse.

Nowadays, medical workers, scientists, politicians and public figures claim that the youth subculture is saturated with consciousness distorted drugs, enticing more drug intake. One the main and obvious questions arise is why young people take drugs? Because it became a state of fashion to take drugs, or at least, as they think, it is something they shall not be ashamed of. The illusion of freedom which is promoted by TV and Media is deadly. If a young boy or a girl does not have a strong understanding of norms and consequences about drugs and its abuse, they are easily influenced and may fall within the high risk group. Until our young generation is not fully informed and aware of real consequences and fatal risk of drug abuse, they are potential victims of drug pandemics. This is one of the main key factors, where the World League believes shall be focusing its major attention. We will be able to influence the youth subculture and to form and offer an alternative. We now how to do it! We will announce a new fashion trend, the trend against drug addiction – the healthy life style trend.

Financial aspect of the World League

The means of financial incomes:

- Membership contributions
- Charity
- Grants
- Incomes form budget and non budget Funds
- Voluntarily work
- Other incomes, in the frames of law
